Professional Experience

Associate Product Manager, Mahindra

01/2023 – present | Bangalore, India

- Completely redesigned the auction platform (Ediig) Mobile/Desktop website, along with **revamping** the Android and iOS apps. **Improved user experience (UX)** by making it more intuitive and appealing, while giving it a fresh and modern appearance.
- Added Redis to our platform to make things faster and more stable. It caches important data between the database and our site/App, giving users a smoother experience.
- Simplified approval processes on the auction platform with an **automated notification system**, cutting manual work and enhancing communication.
- Created invoicing on the auction platform, saving time and **ensuring 100% accuracy** by removing manual effort.
- Transformed user KYC and onboarding process on the auction platform, **cutting completion time** from 24-48 hours to just 10 minutes.
- Served as the main point of contact for training and support on new releases, resulting in an **80% increase in adoption rates** and a 70% decrease in support tickets.

Product Manager, Smartivity

07/2022 – 12/2022 | Delhi, India

- Led a team of six members, collaborating with marketing, sales, customer success, and external agencies to **drive successful product launches**.
- Identified major touchpoints for incoming website traffic, using tools like Google Analytics and Clarity. Reduced friction points, resulting in a significant **64% increase in the CVR** (Conversion Rate).
- Strategized extended pricing and retention plans, contributing to an impressive **83% improvement in orders**.
- Designed successful A/B experiments on UI/UX, resulting in a substantial **47% increase in browse-to-ATC** (Add to Cart) events.
- Researched and integrated Trust badges following brand guidelines, ensuring a secure checkout experience. This effort led to a remarkable **30% increase in the Cart to Purchase rate**.
- Enhanced website speed by reducing loss points, leading to a remarkable **50% increase in performance and traffic**.
- Drove product launches including working with the **public relations team**, customer support executives, product designers, and other product management team members.

Chief Executive Officer, Veeery

04/2019 – 07/2022 | Bangalore, India

- Used customer-centric design, **involving over 600 hours of engagement with visually impaired individuals**, to develop an educational platform that ensures a seamless learning experience for the visually impaired.
- Created and led a team of 12 individuals, **successfully adding over 1000 accessible content pieces to the platform**. Accumulated more than 7200 hours of consumable content to date.
- Simplified the business model by transitioning into a royalty-free structure, **resulting in a remarkable 90% reduction in costs**. This change ensures sustainability and viability.
- Established a network through **strategic partnerships with schools and NGOs**, effectively spreading awareness about the product's benefits.
- Achieved initial revenue within 9 months of conceptualization, **positively impacting over 5000 visually impaired individuals** through the platform.
