# **Professional Experience**

## **Associate Product Manager,** *Mahindra*

01/2023 - present | Bangalore, India

- Led complete redesign of auction platform (Ediig) for **mobile/desktop websites and Android/iOS apps**, enhancing user experience and modernizing appearance.
- Conducted A/B testing using Google Optimize, resulting in a 25% increase in engagement rate and 15% reduction in bounce rates.
- Implemented **Redis caching system**, significantly improving platform speed and stability, resulting in smoother user interactions.
- Automated PAN and Aadhaar verification using AuthBridge, reducing KYC and onboarding time from 24-48 hours to 10 minutes.
- Developed Ediig app with **multi-language support**, enhancing accessibility and driving wider adoption among native Indian language speakers.
- Integrated Ediig Portal with SAP for real-time bi-directional updates, **cutting manual effort by 80%** and eliminating errors.
- Streamlined approval processes through an **automated notification system**, reducing manual work and improving communication efficiency.
- Implemented invoicing functionality on the auction platform, ensuring **100% accuracy** and significant time savings by eliminating manual effort.

## **Product Manager,** *Smartivity*

07/2022 – 12/2022 | Delhi, India

- Led a team of six members, collaborating with marketing, sales, customer success, and external agencies to drive successful product launches.
- Identified major touchpoints for incoming website traffic, using tools like Google Analytics and Clarity. Reduced friction points, resulting in a significant **64% increase in the CVR** (Conversion Rate).
- Strategized extended pricing and retention plans, contributing to an impressive 83% improvement in orders.
- Designed successful A/B experiments on UI/UX, resulting in a substantial **47% increase in browse-to-ATC** (Add to Cart) events.
- Researched and integrated Trust badges following brand guidelines, ensuring a secure checkout experience. This effort led to a remarkable **30% increase in the Cart to Purchase rate**.
- Enhanced website speed by reducing loss points, leading to a remarkable 50% increase in performance and traffic.
- Drove product launches including working with the **public relations team**, customer support executives, product designers, and other product management team members.

## **Chief Executive Officer,** *Veeery*

04/2019 – 07/2022 | Bangalore, India

- Used customer-centric design, **involving over 600 hours of engagement with visually impaired individuals**, to develop an educational platform that ensures a seamless learning experience for the visually impaired.
- Created and led a team of 12 individuals, **successfully adding over 1000 accessible content pieces to the platform**. Accumulated more than 7200 hours of consumable content to date.
- Simplified the business model by transitioning into a royalty-free structure, **resulting in a remarkable 90% reduction in costs**. This change ensures sustainability and viability.
- Established a network through **strategic partnerships with schools and NGOs**, effectively spreading awareness about the product's benefits.
- Achieved initial revenue within 9 months of conceptualization, positively impacting over 5000 visually impaired
  individuals through the platform.
