Professional Experience

Associate Product Manager, *Mahindra*   01/2023 – present | Bangalore, India

- **Streamlined approval processes** across the used car business by creating an automated notification system, reducing manual effort by **80%** and improving communication.
- Integrated Payu for payments in the procurement process to procure vehicles and handle all procurement-related transactions. This transition streamlined the process, **reducing payment processing time by 60%**.
- Optimized report management using AWS Lambda for cost-effective server management, resulting in improved efficiency and enhanced reporting features.
- Introduced a vendor management platform to select dealers and listing platforms strategically, **cutting lead generation costs by 50%**.
- Revamped inventory management by integrating it all into one Retail app. Now, sales execs don't have to **switch between platforms anymore**.
- Served as the main point of contact for training and support on new releases for Retail and procurement-related apps. Achieved an **80% increase in adoption rates**, leading to a **50% decrease in support tickets** and a **60% decrease in onboarding time** for new users.

Product Manager, *Smartivity*   07/2022 – 12/2022 | Delhi, India

- Led a team of six members, collaborating with marketing, sales, customer success, and external agencies to **drive successful product launches**.
- Identified major touchpoints for incoming website traffic, using tools like Google Analytics and Clarity. Reduced friction points, resulting in a significant **64% increase in the CVR** (Conversion Rate).
- Strategized extended pricing and retention plans, contributing to an impressive **83% improvement in orders**.
- Designed successful A/B experiments on UI/UX, resulting in a substantial **47% increase in browse-to-ATC** (Add to Cart) events.
- Researched and integrated Trust badges following brand guidelines, ensuring a secure checkout experience. This effort led to a remarkable **30% increase in the Cart to Purchase rate**.
- Enhanced website speed by reducing loss points, leading to a remarkable **50% increase in performance and traffic**.
- Drove product launches including working with the **public relations team**, customer support executives, product designers, and other product management team members.

Chief Executive Officer, *Veeery*   04/2019 – 07/2022 | Bangalore, India

- Used customer-centric design, **involving over 600 hours of engagement with visually impaired individuals**, to develop an educational platform that ensures a seamless learning experience for the visually impaired.
- Created and led a team of 12 individuals, **successfully adding over 1000 accessible content pieces to the platform**. Accumulated more than 7200 hours of consumable content to date.
- Simplified the business model by transitioning into a royalty-free structure, **resulting in a remarkable 90% reduction in costs**. This change ensures sustainability and viability.
- Established a network through **strategic partnerships with schools and NGOs**, effectively spreading awareness about the product's benefits.
- Achieved initial revenue within 9 months of conceptualization, **positively impacting over 5000 visually impaired individuals** through the platform.
